

Introducing Earth Rx...
*Help your skin look and feel rejuvenated
with natural, healing hydration.*

*Our all-natural formulas penetrate
beneath the surface to moisturize
from the inside out!*

Most moisturizers contain artificial chemicals that only soothe the very top layer of your skin for short-term, superficial relief.

Introducing **Earth Rx**... a new line of clinically proven, dermatologist-recommended moisturizing lotions and lip balms that use the deep-penetrating power of natural, soothing ingredients to hydrate dry, chapped skin for a healthy look and feel.

Each **Earth Rx** product is made from a proprietary blend of healing ingredients, like olive oil and honey, found in nature – not in a lab, so it's ideal for sensitive skin. Our lightly scented, non-greasy formulas are rapidly absorbed to provide lasting relief. No other line penetrates as deeply or leaves your skin feeling as supple, soft and smooth.

Earth Rx...
Natural hydration for naturally soft, beautiful skin.
