The crisp, approachable line of sakes that's perfect for pairing with your favorite meals.

The Japanese have enjoyed the delicious versatility of sake for over a thousand years, but for most Americans sake has remained a mystery.

Introducing **Origami...** a line of premium sakes with a crisp, clean taste that unlock the drink's Old World mystique and take the guesswork out of choosing the ideal sake to go with a meal, or to enjoy any time.

Origami is made from specially harvested Japanese rice and pure mountain spring water. It's a wonderfully versatile alternative to wine – perfect to pair with your favorite foods... or just sip it chilled to unwind.
