

ProTek

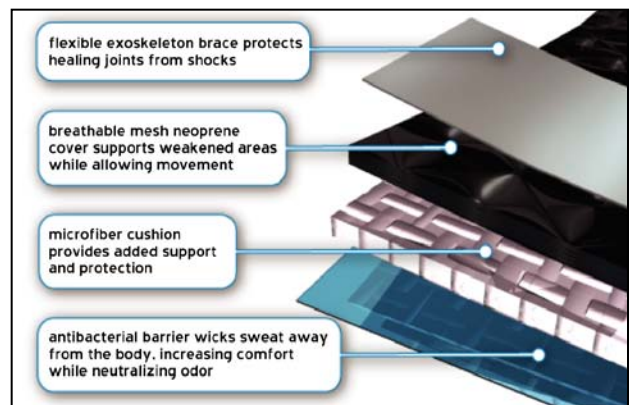

Introducing ProTek **State-of-the-art sports braces and wraps** **that provide maximum support and protection.**

From iPods that provide a soundtrack for your run to clothes that help keep your body drier when you work out, technology has changed the way we exercise and play. But when it comes to braces and wraps, there hasn't been anything that's changed the game... until now.

Introducing **ProTek**... the new line of highly advanced sports medicine products designed to help support and protect sprains and strains while maximizing performance and comfort.

Our exclusive design team of sports medicine doctors, biomechanics experts and engineers tested hundreds of materials and conducted trials with professional athletes. The result? A technologically advanced line of equipment that's as strong as your will to win. Each **ProTek** product has 4 ultra-lightweight layers that support muscles and joints, providing the ultimate in cushioning, stabilization and flexibility.

ProTek... **Stay in the game!**
